

WX-400 Four Port Cable Free USB Hub

Highlights

Standard Features

- ★ Connects iLoad Series Load Cells to your computer wirelessly, up to 30 ft. away
- ★ Reduces cable clutter and lets notebook users roam
- ★ Transfers data at speeds of up to 480Mbps

Overview

The WX-400 USB Wireless Hub has a range of up to 30 feet and lets you easily connect one to four load cells and access them wirelessly. The hub operates out of the box as a plug-and-play solution for Windows XP or Vista. Simply connect your load cells and start measuring!
